M.sc | Industrial design
Technion, Israel Institute of
Technology.

2020- Present

B.Des | Industrial Design
Bezalel, Academy of Art and
Design

2016- 2020

Hi I'm Shahar

I've always been fascinated by how things work-
from a gear mechanism up to the natural cell division
process.

As a designer at an ever changing world, I believe
I should get familiar with different fields of knowledge
so I could solve old problems in a new way.
This is why I strive to be professional and
multidisciplinary.
